Fall Arrest Block Defender RGA6 DEF

Product information

Designed to intercept any fall, this 6m variant of the Defender fall arrest block range provides the perfect solution for most working at height situations. The galvanised wire makes work smooth and unproblematic, a fall indicator is integrated into the aluminium swivel hook.
The Defender range as a whole offers a lighter more compact alternative to traditional fall arrest blocks, without losing any of their benefits. They have a sleeker design and top swivel to help with connection.
