Geared Trolley WH-GT

Product information

The William Hackett WH GT Geared Travel Trolleys range is precision engineered in capacities from 500kg to 10 tonne. Enabling exact positioning or easy traversing of large loads incorporating Manual hoists, the Hackett series push trolley can be supplied to suit various track widths with Beam Range 1 and the extended Beam Range 2. It has been designed so that the bottom of the hand chain loop is 500mm from ground level. The runners (trolley wheels) are precision machined and they rotate on maintenance sealed ball bearings. All Hackett geared trolleys are fitted with anti-jump bars and rubber end stops as standard.

Marking: According to standard

Standard: EN 13157

Part code	WLL ton	Beam width mm	a mm	b mm	c mm	e mm	Weight kg	Delivery time
