

Fork Mounted Sand Bag Carrier

Product information

The Fork Mounted Sand Bag Carrier provides a simple and effective method of moving full or partially full sand bags / bulk bags / tonne bags around your site / yard. Due to its extended load centre the potential ripping of the bags on the foot of the mast is eliminated and the built-in fork pockets also provide convenience and efficiency.

Standard Features

- Four smooth profile lifting lugs.
- Zinc Plated Heel Pins for safe attachment to truck.
- Painted bright orange for safety.
