Roof Truss Jib

Product information

Roof Truss Jib The Quick Hitch Roof Truss Jib is an ideal attachment when trying to place trusses in to the middle of a plot. We can manufacture the attachment to fit Manitou, Dieci and JCB machines offering forward reach when placing at height and designed to carry roof truss packs around sites in transit.

Standard Features:

- Quick hitch facility to designated truck model.
- Supplied with hook and shackle for safe transportation of roof trusses.
- Robust and sturdy design.
- Painted bright orange for safety.
- Fully tested and approved for safe operation.

Optional Features:

- Extending version available
