Crane Slung Boat Skip

Product information

Our Boat Skips includes a specific self-dumping system, used for general muck and waste removal. These high-quality skips perform efficiently and safely as they are lifted and empty automatically without the need of any assistance. This feature eliminates the risk of danger to the personnel or operative alike. Robust manufacture to suit the condition and environment in which the skips work.

Features:

- Low Loading Height.
- No manual intervention needed.
- Bail Arm Rest when not in use.
- Integral Locking Bale Arm once lifted.
- Reinforced Body Sides and Rear
- Reinforced leading edge.
- Painted bright orange for safety.
