All Weather Backpack RGS3 50L

Product information

The RIDGEGEAR 50L All Weather Backpack is a general-purpose storage bag designed for transporting height safety equipment in demanding outdoor environments. Manufactured from durable TPU polyester, it provides generous storage capacity while helping protect equipment from dirt and changing weather conditions during transport and storage.

Best used for:

- Carrying harnesses, lanyards, ropes, and other height safety equipment on-site.
- Outdoor work where equipment requires durable, weather-resistant storage and transport.

Product benefits:

- 50L capacity accommodates a substantial amount of height safety equipment.
- TPU polyester construction provides durable performance for all-weather use.
- Drawstring closure with protective lid helps keep equipment clean during transport.
- Padded back panel, shoulder straps, and waist belt improve carrying comfort.
- Front storage pocket keeps smaller essentials organised and easy to access
