# Helmet RG

**Product information**

The RIDGEGEAR Safety Helmet is an industrial safety helmet designed to protect users from falling objects in construction, maintenance, utilities, and other work-at-height environments.

**Best used for:**

- Construction, maintenance, utilities, and industrial worksites requiring EN 397 head protection.
- Professionals needing a comfortable helmet compatible with visors, earmuffs, and helmet-mounted lamps.

**Product benefits:**

- High-density ABS shell provides durable impact protection for demanding workplaces.
- Eight mesh-protected ventilation ports improve airflow while helping prevent debris ingress.
- Easy Turn 3D adjustment system delivers a secure, personalised fit from 54 to 61 cm.
- Removable COOLMAX® and Sanitized® inner padding supports comfort and simplifies cleaning.
- Universal accessory connection points accept compatible visors, earmuffs, and helmet lamps for greater workplace versatility.
