

Work Positioning Harness RGH4

Product information

The RIDGEGEAR RGH4 Front, Rear & Side D Work Positioning Harness combines fall arrest and work positioning capabilities in a single full body harness. Designed for professionals working at height, it features front, rear and side attachment points with an integrated work positioning belt, making it suitable for tasks that require secure, hands-free positioning.

Best used for:

- Telecoms, construction, scaffolding and industrial maintenance at height.
- Fall arrest and hands-free work positioning with compatible lanyards and equipment.

Product benefits:

- Front, rear and side D-rings support fall arrest and work positioning.
- Integrated positioning belt provides stable, hands-free working support.
- Fold-back side D-rings reduce snagging when not in use.
- Fully adjustable harness with rip-stitch fall indicators simplifies fitting and inspection.
- Tool loops and 45 mm RIDGE Protect antibacterial polyester webbing support daily industrial use.
