

Work Positioning Harness RGH7

Product information

The RIDGEGEAR RGH7 is a multi-use full body work positioning harness designed for professionals performing work at height where fall arrest, work positioning, sit suspension and rescue capability may all be required. With five attachment points, padded support areas and multiple EN certifications, it provides a versatile solution for demanding industrial applications.

Best used for:

- Work positioning, fall arrest, rescue and sit suspension tasks in construction, telecoms, utilities and industrial maintenance.
- Applications requiring multiple attachment options and extended periods of comfortable work at height.

Product benefits

- Five attachment points support fall arrest, positioning, suspension and rescue applications.
- Waist, leg and shoulder pads help improve comfort during prolonged use.
- Side D-rings enable stable hands-free work positioning when used with a suitable lanyard.
- Fast-fit leg buckles, tool loops and tail tidies simplify fitting and equipment management.
