The Twin Leg Scaffolder’s Kit RGHK4

Product information

The RIDGEGEAR RGHK4 Twin Leg Scaffolder's Kit is a complete fall arrest kit designed for scaffolders and other professionals who need continuous attachment while working at height. Combining a two-point full body harness with a twin leg energy absorbing lanyard and scaffold hooks, it allows safe movement between anchor points without disconnecting from the structure.

Best used for:

- Scaffolding, steel erection and structural maintenance.
- Work at height requiring continuous attachment when moving between scaffold or steel anchor points.

Product benefits

- Complete kit includes harness, twin leg lanyard, karabiner and two scaffold hooks.
- Twin leg lanyard enables continuous attachment during anchor point transfers.
- 60 mm double-action scaffold hooks provide secure connection to scaffolding and steelwork.
- Energy absorbing lanyard limits maximum arrest force to below 6 kN.

Kit contains:

- Front & rear D harness (RGH2)
- Twin leg webbing lanyard and shock absorber (RGL3)
- 17mm steel screwgate karabiner (RGK1)
- 60mm aluminium double-action scaffold hook with captive eye x 2 (RGK11)
