Wheels diameter: ø 350 / 550 mm

Notes:Forks tilt back as they lift. The capacity of 1200kg is given at 500mm load centre.

A strengthened version of the Rough Terrain Pallet Truck with an increased capacity of 1200kg!

Designed for applications such as builders yards, farms, garden centres etc. This Rough Terrain Pallet Truck is very useful out on site, where there is only an occasional need for moving pallets by forklift, or where no ordinary forklift or even pallet truck can go (eg. rooftops where forklifts aren't allowed). Thanks to it's large wheels, adjustable forks and straddle legs it can be used for any type of pallet (up to 1200 x 1200mm) on uneven ground.
